Hello

Lance Aldredge here at 1297 Brook Forest Dr NE in Lavista Park. I have been a licensed cosmetologist since 1986. All of this time, I have worked in Buckhead. Since 1994, I have rented a space in Esthetiques Salon on Grandview, just off Pharr Rd.

I was full time until I was fortunate enough to join the GA Film Industry doing hair for movies and television 10-12 years ago. Over time, this has become my full time endeavor and the salon has become more and more part time.

Now, because of Covid-19, I'm dead in the water with Film....indefinitely. And I can't afford the hefty salon rent.....especially since many clients are still reluctant to come out to the salon.

I propose to my clients and to you to open a quiet, small salon space in my basement. There would be only one client at a time and an occasional brief overlap of a second client. This would build confidence in my clients and drop the large overhead expense.

I'm not planning on building a larger client base (which is now only 14-20 clients).....but just maintaining what I have and looking forward to the Film industry opening back up soon.

Per the items on page 2-3 of the Brookhaven SLUP (Sec.27.309 a.-g.)....

- a. Yes, b. yes, c. yes, d.1. no, d.2. 9-5 Saturday and occational Friday, d.3. One or two cars at a time, e. no, f. not applicable, g. single family on either side

In addition, my partner of 23 plus years, John Spickerman, has had major medical setbacks in the last five years: back surgery, stroke, and, more recently, triple bypass surgery. Consequently, he has become dependant of walkers, wheelchairs and chairlift. I would like every opportunity I have to be around the house to help him out.

Thank you for your time and consideration.

Robert Lance Aldredge
