

**ITB 18-059**  
**Blackburn Tennis Court Renovation**  
**Addendum #3**

Can you double check that the asphalt and rock inches are not switched? This would be for answers 7 and 8.

It was also discussed to just take up the existing asphalt and leaving the GAB stone in place. Just freshening up the GAB as needed. Is this still being considered?

Yes, please switch the asphalt and rock for questions 7 & 8.

We are now asking for the bid to include taking up all the existing asphalt and GAB down to the dirt and replacing it with all new.

The amounts currently there are included in the report from GeoHydro Engineers.
