

ADDENDUM #1

CITY OF BROOKHAVEN INVITATION TO BID #18-180 Murphey Candler Lake Shoreline Restoration

1. What is the depth of water the floating turbidity curtain will be set in?
Water depth varies. It is recommended that the contractor conduct a site visit in order to ensure product and pricing compliance.
2. For the Tennessee fieldstone, are you requesting field-stone boulders close to those dimensions shown on the plans and details or do you need step-like shapes cut to that size?
Tennessee Fieldstone to match dimensions, texture and color of Tennessee Fieldstone installed during Phases I & II. It is recommended that the contractor conduct a site visit in order to ensure product compliance.
