RE: ITB No. 19-403, Briarwood Sidewalk Project

Please see Addendum No. 1 for the above-referenced solicitation.

ADDENDUM NO. 1
ITB NO. 19-403
BRIARWOOD SIDEWALK PROJECT

A. The following are questions received and City of Brookhaven responses for the above-referenced solicitation:

1. What is the City's expectation for watering the new sod?

Past projects have shown the property owners fail to water the newly laid sod after it's been installed. As per Paragraph 10, Exhibit B, "The Contractor shall irrigate newly installed landscaping a minimum of six times, as directed by Engineer. The contractor shall be responsible for obtaining water.

**** Please note: No line item was added to the fee schedule. Please add this under Temporary Erosion Control and state "Watering as per Paragraph 10" in the description.**

2. Have the Utility Companies been notified of this work?

The Utility Companies have been notified. A schedule has not been established. The contractor will need to coordinate with Utility Companies as the placement of the retaining wall will dictate when the utilities can be relocated.

3. Is there adequate room for us to build the retaining wall?

Yes. Adequate right-of-way has been obtained as well as a construction easement.

B. All other terms and conditions remain the same.
