RE: RFP No. 19-405, Tree Canopy Study Update

Please see Addendum No. 1 for the above-referenced solicitation.

ADDENDUM NO. 1
RFP NO. 19-405
TREE CANOPY STUDY UPDATE

- A. The following are questions received and City of Brookhaven responses for the above-referenced solicitation:
1. Does the city have leaf-on, 4-band aerial or satellite imagery to provide for any of the past 10 years other than 2014 and 2016?
No, the city does not have any imagery.
 2. Does the city require tree canopy mapping for each year, or can alternative methods be used such as random point-based classification?
Alternative approaches can be submitted in the proposals (e.g. every other year imagery, starting in the first available year if 2009 is not available).
 3. Is full land cover mapping required for historic years or will canopy mapping alone suffice?
Canopy mapping alone is sufficient.
- B. All other terms and conditions remain the same.
