GENERAL LAYOUT NOTES:
- Install joints where shown. Align on walls, buildings, radii, etc. Evenly space between elements as shown.
- Provide expansion joints between concrete pavement and vertical elements (walls, curbs, etc.).
- Layout all curbs ortentially with no abrupt changes at tangent points.
- Ensure all angles are 90 degrees unless otherwise noted.
- Lay out all elements in field and contact owner's representative before beginning any construction.
- Contractor to provide all precast elements to avoid site utilities. All utilities not shown on drawings. Verify locations and consider when estimating.
- All pavement markings and traffic control devices shall be installed per the Manual on Uniform Traffic Control Devices (MUTCD), latest edition.
- All grade elevations and horizontal control to be set from project benchmark noted on plans.

TREE NOTES:
- Special detail will be utilized for sidewalk pavement over tree roots.
