

Sustainable Brookhaven Work Program
2020

ID	Initiative
2.0 Built Environment	
2.12	Continued to provide EV charging at no cost to residents, which was utilized more than 3,000 hours and equaling more than 7,000 kg of greenhouse gas savings (as of 8/31/2020)
2.13	Completed dredging of Murphey Candler Lake, removing an estimated 13,768 cubic yards of sediment material
2.14	Completed shoreline restoration of Murphey Candler Lake
2.15	Installed a Bandalong trash trap system at Murphey Candler
2.16	Adopted the revised International Energy Conservation Code, upgrading requirements on minimum efficiency and helping to improve compliance by allowing third-party inspections
2.17	Improved connectivity and accessibility for multimodal transportation through sidewalk maintenance, ramp additions for ADA compliance, and bike lane striping
2.18	Began restoration of the streambank south of Murphey Candler Lake (with US EPA Grant)
